In light of applicant's comments regarding figures 6 and 8 and the pressure-velocity relationship, it is now the examiner's position that the current claims are supported back to the original application, 08/2280-13 filed 4/15/1994.

The following is an examiner's statement of reasons for allowance:

Claims 1-11, 13, 14, and 19 define over the art in that none of the art monitors a change in the pressure-velocity relationship.

Claims 16 and 18 define over the art in that none of the art uses dispersion or attenuation, as defined in the specification, as a trigger parameter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (703) 308-3251. The examiner can normally be reached on Mon-Fri, variable hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (703) 308-3130. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
